DECON

ENTERPRISES at glance

DECON ENTERPRISES was established in 2018 and is renowned for its unparalleled commitment to deliver the finest quality of smart interiors & construction solutions through its four major divisions:

DESIGN, CONSTRUCTION, FIT OUT and FF&E.

DECON ENTERPRISES is based in the heart of New Cairo City. We offer a wide range of services from interior to exterior work and we provide superior customer service to prospective clients who wish to take their dreams into reality during their journey to next home fit-out, FF&E or commercial remodeling project. We are determined to make the vision of your home or office comes alive by combining old world craftsmanship with modern technology.

Innovations Shape The Future

Smart Design

Our approach interprets your needs and wants to create a space tailored specifically for you. We provide smart interior design that tailors our services to get your space working for you. With attention to detail through all the stages, you can rely on your designer to deliver a personal environment best suited to you.

Smart Construction

We build your vision and project smart by using smart building design, construction and operation. This is through collaborative partnerships that make full use of digital technologies and industrialised manufacturing techniques which enhance the productivity, minimize cost, improve sustainability and maximize user benefits.

Smart Fit-Out Execution:

Interior construction is a critical portion of a project. For some, the inside of a planned space can be the hardest to visualize. Design-Build experts at DECON Enterprises help all clients, literally see a project through from the start. At DECON Design-Build experts help clients translate their unique needs into the right space by:

- Bringing architects, interior designers, engineers and code specialists under one roof for pre-construction.
- Maintaining open channels of communication with clients from planning to groundbreaking to completion.

Smart FF&E:

Smart planning is the lifeblood of every successful FF&E installation. That's why our team at DECON Enterprises starts every project by evaluating your unique site situation to develop a transition plan that meets your goals. We've worked in spaces that are partially occupied, undergoing renovations and completely empty. We know exactly how to design an effective installation around your needs.

Smart Team:

Working in collaboration with the project team, we provide insight on innovative and creative construction methods and materials to ensure our clients receive a high-performance facility that maximizes return on investment.

HSE

Procedures

Health (H) and Safety (S) Environment (E) is a discipline and specialty that studies and implements practical aspects of environmental protection and safety at work. Decon Enterprises makes sure that their activities do not cause harm to anyone. Commonly in quality - quality assurance & quality control From a safety standpoint, Decon Enterprises involves creating organized efforts and procedures for identifying workplace hazards and reducing accidents and exposure to harmful situations and substances. We also include training of personnel in accident prevention, accident response, emergency preparedness, and use of protective clothing and equipment.

Better health at its heart, should have the development of safe, high quality, and environmentally friendly processes, working practices and systemic activities that prevent or reduce the risk of harm to people in general, operators, or patients.

From an environmental standpoint, Decon Enterprises involves creating a systematic approach to complying with environmental regulations.

SAFETY is
our first priority
